Additional Information:

I am in excellent health and very vigorous. I am proficient in essentially all phases of urologic surgery, and have been doing advanced laparoscopic procedures since I performed the first laparoscopic nephrectomy ever done at Greater Baltimore Medical Center. I have been doing Robotic procedures since 2004 at both Greater Baltimore Medical Center and St. Joseph Medical Center. I am also proficient in the use of all urologic lasers, including the Holmium, Nd,-Yag, and Greenlight lasers.
